

Bendy

by Studioepepe

shelf

| description | material - finishing | size | sizes are in centimeters |
|---|--|--|--------------------------|
| <p>— Bendy is a shelf made of a single stainless steel foil, folded and with a brass or matte nickel finishing, that creates a harmonious support surface. The design, essential yet unique, highlights the material as protagonist, enhancing its flexibility. Bendy is available in two different dimension, to meet any specific need.</p> | <p>^A Matt brass plated stainless steel</p> | <p>L55 W25 H10 L95 W25 H10</p> | |
