— Shirudo, shield in Japanese, is a coffee table that can be used either individually or in pair. Made entirely of metal, the peculiarity of the product is the slight curvature of the legs, a feature that unburdens the playfulness of the material. The visible joints highlight the excellent level of craftsmanship, allowing the product to pleasantly illuminate the surrounding environment without giving up its charm.

Category Furniture Collection

Gross weight 30 kg – 45 kg

Orders can be made on sq.m.

70 x 70 x h 55 cm – 100 x 100 x h 40 cm
